**University of Limerick issues transcripts electronically in a secure, verifiable PDF format. It is recommended that graduates share links to Digitary instead of downloading files, so that the most recent, approved document is always verifiable by the recipient.**

**Where a PDF has been downloaded from Digitary, in order to verify the document signature and ensure that it has not been altered since it was issued:**

- Open the document in Adobe Acrobat Reader or Adobe Acrobat Pro.
- At the top of the document, a blue bar will confirm that the document has been certified by Academic Registry (you can verify this by checking that the email address is @ul.ie) [1 on the image]. If you require further information, locate and click on the Signature panel. The pop-up notice will confirm that (a) the document has not been modified since it was issued and (b) that the document was signed by Academic Registry at University of Limerick.
- The Student Status, for graduates, should be at "Graduated" for the relevant course. [2 on the image].
- At the bottom of the document, a digital stamp verifies the document has been signed digitally [3 on the image].
- Further information, if required, on Digitary and Official Documents or on how to verify electronic documents is available on the Academic Registry website.

Certified by Academic Registry Division, University of Limerick, certificate issued by GlobalSign Atlas R45 AATL CA 2020.
